The Manamater Store. Ideal and Attainment

But! A margin full wide enough exists between our store as it is and the store we wish to have. Introspection is a principle of this organization that is thoroughly applied.

Nevertheless there is no sham humility in our management and we know what claims of our business can be fully sustained. Therefore as we review the conditions of our store and our stocks at this writing we are confident that modern retailing has never shown to the citizens of New York and vicinity a collection of merchandise combined with a store service equal to that presented here for the business of the current season.

Carpet Facts, General and Specific.

The general statement may be condensed to this, -our Carpet Store is one of the few in America that are complete in all details. It follows that it is one of the largest. It is in a class that is occupied by not more than four others. It is untrammelled by precedent or engagement. It has formed no "entangling alliances" with manufacturers. It is free, independent, powerful.

Specific bargains in many lines reflect the above conditions. Among these may be men-

Further Evidence of Power Lies in Our Unequalled Collection of Straw Mattings.

All these goods are direct importations and are sent us straight from the makers as soon as made. Hence fresh, new, clean. Most of them were made to our special order, hence novel and (especially in the Japanese makes) exclusive in pat-tern.
